

Communication N° 1 (Amended) 2024 FIA Motorsport Games Cross Car Mini

Published by the FIA on 03 September 2024

The following communication is intended to provide information and clarify frequently asked questions regarding the registration for the Cross Car Mini (XC Mini) category at the Motorsport Games 2024. The information in this communication serves as a guideline to be considered when completing the entry form. For the complete information, please read the XC Mini Sporting Regulations, which can be downloaded via the following link:

<https://www.fiamotorsportgames.com/category/77/Cross-Car-Mini#official-documents>

1. Competitor's information:

- The competitor must be a legal entity or a physical person, holding a valid International Competitor's license and the necessary authorisation issued by their ASN. The competitor must be a team, the father, mother or legal guardian of the driver. This is important since the driver is minor. The name of the competitor must be in the competitor's license.
- Since in the XC Mini category, the drivers are minors, the competitor cannot be the driver.
- The information regarding license number, country and issuing ASN must match the photo of the license uploaded, which must be clear and legible.
- In case the competitor wants to nominate a representative, this must be the person that will attend the FIA Motorsport Games 2024 in person and will be accompanying the driver.
- In case the competitor is a physical person, but cannot attend to the FIA Motorsport Games 2024, the competitor must fill the representative data (physical person) and send a letter to rquintanilla@fia.com, indicating that the representative is going to represent the competitor.
- In case the competitor is a legal entity, the competitor's license must have the name of the legal entity and the representative must be a physical person within the legal entity or a person outside the legal entity that has a letter being authorized to be the representative. This letter must be sent to rquintanilla@fia.com.
- The photo of the competitor representative must be of good quality, with a neutral background and avoiding the use of helmets or any other implement that might interfere with the identification of the competitor. If the competitor is going to attend the event, and will not assign a representative, the competitor must fill the "competitor representative" with its own information and picture.

2. Driver's information:

- The first and last names of the driver declared, as well as the driver's ID number, must match with the photocopy of driver's ID. It should be noted that the driver must be between 8 and 12 years of age at the time of the start of the competition.
- The required identity document can be an ID card or the passport, however, we strongly recommend using the passport, so that we can verify that there are no problems with the travelling, even if it is the full responsibility of the driver. This document must be legible and of a good quality.
- The driver must hold a valid National Driver's License, of the minimum required grade in the ASN country for Off-Road or Karting competitions. If you do not have a physical license, please upload a digital license or a validation that allows us to verify the validity of the license.
- For the neck and head circumference, please see the Appendix 2 of the Sporting Regulations for Cross Car Mini, since these measurements are going to be used for the safety equipment of the drivers.

3. Competition authorisation for minors:

As the XC Mini category is for drivers aged 8 to 12 years old, by FIA regulation, it is imperative that the driver's parents or legal guardians complete and sign a letter of authorisation for the driver to compete in the XC Mini category during the Motorsport Games 2024.

The document to complete and sign must be requested by email to the address: rquintanilla@fia.com with the Subject: Motorsport Games Registration – XC Mini – “Given name” “Surname”

Once the registration has been completed, via the Motorsport Games platform, the signed authorisation document must be sent to the FIA.

For any questions regarding the Cross Car Mini category, please direct your enquiries to the following e-mail addresses: rquintanilla@fia.com.
